CONSIST
Business Information Technology

Consist Software Solutions is a specialist in Digital Transformation, IT Security, and Managed Services.
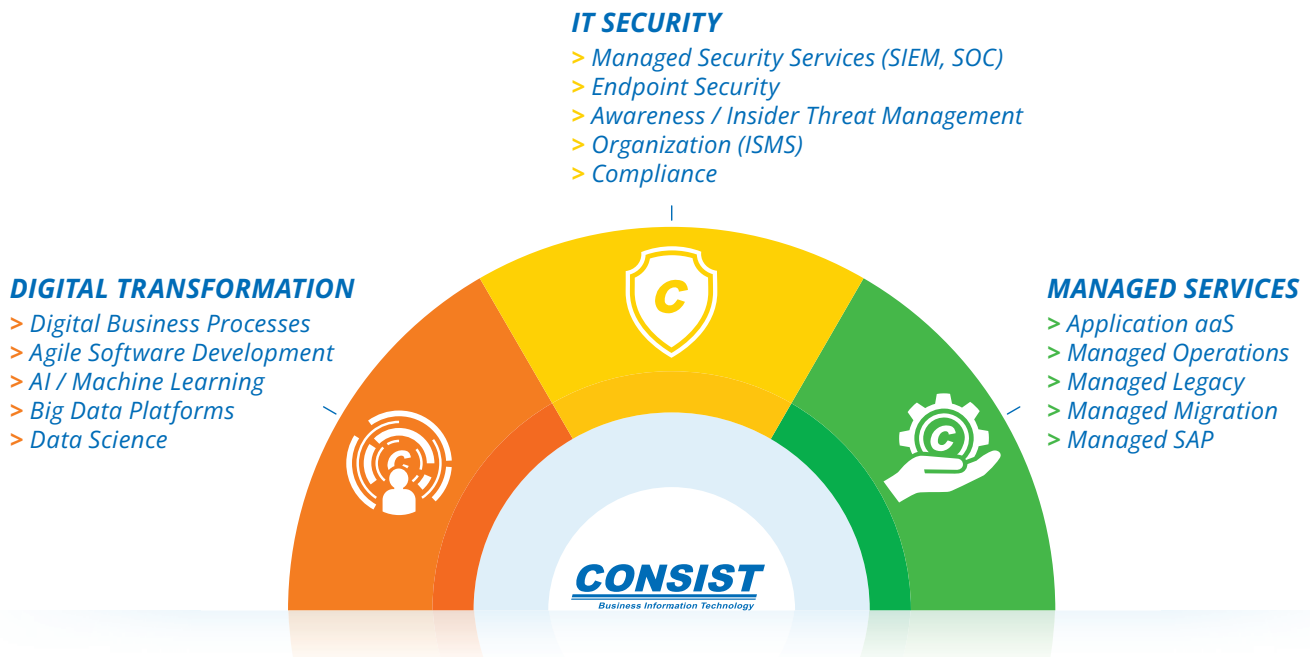

Our comprehensive range of services and solutions includes:

» IT consulting

» Design of IT architectures and IT landscapes

» Conception, development, and integration of custom IT solutions

» Support of applications and systems (from subtasks to complete outsourcing)

» Sale and distribution of software products

We do IT for you.

The more than 200 employees at Consist are characterized by sound know-how ranging from the most modern to legacy technologies. Consist has more than 35 years of experience in the market, and has offices in Kiel and Frankfurt.

We create individual, future-oriented solutions in an increasingly challenging digital world – with strong implementation skills, reliability, and pragmatism.
